Hopefully most of you have read over the Compak rules by now and you are quite familiar with the changes, however here is a brief summary. Largely there is little difference between 5-Stand and Compak apart from some minor procedure changes and slightly more defined target trajectories.

Shooting procedure:

- 6 Man squads.
- The extra shooter waits behind stand 1 to view the targets.
- Stand 1 shoots first after each stand change.
- Gun mount is free ie. you can shoot gun up on any target.
- No sighters, the targets will be shown at the beginning of the day, squads must backup to view the targets.
- Once shooting starts, shooters are allowed only 10 seconds between targets.
- There is no need to call out your targets before shooting, the ref. has a copy of the menus in front of him. This helps speed up the round.
- The menus are designed so that the last target of each pair is the first target shot by the next shooter.

Field layout:

- It is recommended that a Compak field has at least 6 traps
- All targets must fly over a 40 x 25 meter box in front of the shooting stands, at some stage in their flight.

In the event of a shoot-off, places HOA, 1st - 3rd will be decided by shooting a round of 25 targets on a new layout. Places below 3rd will be decided with a count back as per rule 18.2.

Information from the club:

- Please pay your entry at the office before shooting starts.
- All shooters are required to wear a shooter number, these can be collected from the office before the event. Please allow time before you start to organise your shooter number.
- Drinks, refreshments and lunch will be offered all 3 days. An early breakfast will be available on Saturday and Sunday, but must be pre-ordered the day before.

Shoot Jury:

Mike Holmes
Darryl Groundwater
Geoff Wells

Shooters Rep:
